INDIAN SPACE CONCLAVE

2023 INDIAN SPACE CONCLAVE 2023
10-12TH OCTOBER 2023
NEW DELHI

CALL FOR MEDIA AND SUPPORTING PARTNER

May 2023 Edition

ISpA Newsletter catalogues all endeavours undertaken by ISpA in the direction of propelling India's Space Sector forward.

HIGHLIGHTS OF THE MONTH

- ISpA Media Interaction on 'Assignment of Spectrum for Space-based Communication Services'
- iDEX signed 250th Contract and 1st Under Mission DefSpace
- Pixxel Space has secured \$36M in Series B funding to Advance Hyperspectral Satellite Constellation and Data Platform.
- GSLV-F12/NVS-01 mission accomplished successfully, deployed NVS-01 navigation satellite, first of the second-generation satellites envisaged for the NavIC services.
- Elena Geo Systems has launched the India's first NavIC-based hand-held navigation device.
- OneWeb has commenced building ground stations.
- GalaxEye Space selected as member of Seraphim Space's accelerator program.
- Advent International, alongside minority investor BCI, have completed their acquisition of Maxar.
- Viasat completes acquisition of Inmarsat.
- Suhora Technologies won Geospatial World Startup Catalyst Initiative.

ISpA- Indian Space Association

For General Queries: info@ispa.space, +91 9667303304

For Membership: Ms Aditi (aditi@ispa.space, +91 8437985777); coord@ispa.space

OneWeb has commenced the building of a hyperscale satellite ground station installation at the Arctic Space Technologies' Space Center in Piteå, Sweden

OneWeb and NOW Corporation sign MoU for Combined connectivity to provide clean, secure, high-speed, low-latency broadband connectivity to the Philippines.

OneWeb, with strategic partner GRC, initiates LEO programme for Iceland government, using Dual Parabolic User Terminals in Reykjavik, to demonstrate secure and resilient connectivity across the country

OneWeb announces finalists in its Innovation Challenge 2022 "Connectivity and beyond!". Seven innovators have been successful in the Industrial Partners award category and will now enter a co-engineering phase together with OneWeb to further develop their ideas.

OneWeb confirms successful deployment of 16 satellites including next-generation JoeySat.

Distribution Partnership Agreement (DPA) with iSAT Africa to bring high-speed, low-latency broadband connectivity across Africa.

Viasat completes acquisition of Inmarsat. The closing of the Inmarsat acquisition enables the companies to bring together spectrum, satellite, and terrestrial assets, including 19 satellites in space spanning Ka-, L- and S- bands.

Pixxel Space has secured \$36M in Series B funding from new investors such as Google, along with existing investors Radical Ventures, Lightspeed, Blume Ventures, growX, Sparta and Athera to Advance Hyperspectral Satellite Constellation and Data Platform.

Pixxel's geospatial analysis platform Aurora is live to test. Designed as a full-service toolkit, this easy-to-use analytics dashboard will help businesses simplify insights from satellite imagery. To know more fill in the form: <https://bit.ly/423QPSK>

Pixxel was featured in the list of organisations actively working to address the climate crisis as part of FastCompany's World Changing Ideas Awards

The Elena NavIC Clock is an indigenously developed product of Elena Geo Systems to give high precision and stable time reference to the users. This is built around Elena's ELNMC1A module. The time reference is given out in IST format.

Elena Geo Systems has launched the India's first NavIC-based hand-held navigation device. The navigation device, which can provide precise directions in tasks related to infrastructure projects involving railway, land survey, telecoms and hydrocarbon exploration.

GalaxEye Space selected as member of British investment firm Seraphim Space's eleventh bi-annual accelerator program.

Suhora Technologies is one of the winners of Geospatial World Startup Catalyst Initiative.

Skyroot Aerospace have been awarded as the YOUNG TURK START-UP OF THE YEAR at the CNBCTV18News India Business Leader Awards

Intelsat 40e and its NASA payload TEMPO successfully reached its final geostationary orbit above North America.

MAXAR's methane emission measurement technology was named to FastCompany's 2023 World Changing Ideas list as honorable mention in the climate category, recognizing sustainable designs, innovative products and bold social initiatives.

U.S. private equity firm Advent International, alongside minority investor BCI, have completed their acquisition of Maxar. Maxar will remain a U.S.-controlled, owned and operated company.

ISpA position on Spectrum Allocation of Space based Communication Services

ISpA and all our members strongly believe that for the growth of the nascent space industry, spectrum needs to be allocated by Administrative method and frequency such as the 28 GHz band which is globally allocated for space, should continue to be there for SatCom usage.

Administrative allocation provides a level of certainty and predictability that can be beneficial for the satellite communication industry. With auctions, there is always a risk that spectrum will be allocated to entities that are not best suited to provide the required services. This uncertainty can make it difficult for operators to plan and invest in their networks effectively.

Read Complete ISpA Comments: https://www.trai.gov.in/sites/default/files/ISpA_02062023.pdf

ISRO NVS-01 Mission

GSLV-F12/NVS-01 mission is accomplished successfully on Monday, May 29, 2023. This GSLV mission deployed NVS-01 navigation satellite, weighing about 2232 kg, into a Geosynchronous Transfer Orbit.

NVS-01 is the first of the second-generation satellites envisaged for the Navigation with Indian Constellation (NavIC) services. NVS series of satellites will sustain and augment the NavIC with enhanced features. This series incorporates L1 band signals additionally to widen the services. For the first time, an indigenous atomic clock flown in NVS-01.

Upcoming Launch of Chandrayaan-3

Chandrayaan-3 is a follow-on mission to Chandrayaan-2 to demonstrate end-to-end capability in safe landing and roving on the lunar surface. It consists of Lander and Rover configuration. It will be launched by LVM3 from SDSC SHAR, Sriharikota. The propulsion module will carry the lander and rover configuration till 100 km lunar orbit. The propulsion module has Spectro-polarimetry of Habitable Planet Earth (SHAPE) payload to study the spectral and Polari metric measurements of Earth from the lunar orbit.

Upcoming Launch of Aditya-L1

Aditya L1 shall be the first space based Indian mission to study the Sun. The spacecraft shall be placed in a halo orbit around the Lagrange point 1 (L1) of the Sun-Earth system, which is about 1.5 million km from the Earth.

The suits of Aditya L1 payloads are expected to provide most crucial informations to understand the problem of coronal heating, coronal mass ejection, pre-flare and flare activities and their characteristics, dynamics of space weather, propagation of particle and fields etc.

Media Interaction on 'Assignment of Spectrum for Space-based Communication Services'

ISpA on 24th May conducted a media briefing on the topic of "Assignment of Spectrum for Space-based Communication Services." The briefing aimed to shed light on the crucial aspects and implications of spectrum assignment for satellite-based communication services. The event provided an opportunity to discuss the need for a comprehensive framework that ensures fair competition, promotes innovation, and optimizes spectrum utilization.

Space Unites Us: #USIndiaTogether Address Global Challenges

On the occasion of National Space Day US Consulate General Chennai and Indian Space Association (ISpA) in association with the Indo-Pacific Circle (IPC) organized a webinar on "SPACE UNITES US: USINDIATOGETHER ADDRESS GLOBAL CHALLENGES".

Director-ISpA talked about the bilateral relations of Indo-US on Space Technology matters and the importance of collaboration between the two countries for the growth of Global Space Economy.

ISpA Members Meet

ISpA organized this year's first Members Meet on 19th May 2023 in online mode. New Members in Startup, Associate and Core categories were welcomed by the whole ISpA Team and Members. All members were briefed about the ISpA activities in the past months-MoUs, Events, Reports, Policy Consultations. Members deliberated upon the New Space Policy and provided their recommendations for the guidelines.

RIISE 2023 (Research Innovation & Incubation Showcase of IIIT Delhi)

RIISE 2023 featured panel discussions and research poster presentations on themes such as EV, Communication, Research Monetization etc. The event provided a platform for discussing cutting-edge technologies and research opportunities. The discussion aimed to provide insights into these technologies and their potential impact on society. The poster presentations showcased the latest research findings, technological advancements, and future opportunities.

Lecture at Indian Military Academy

DG ISpA was invited to give a talk on "Leadership Challenges in Modern Conflict" at IMA. DG-ISpA talked to 800 Gentleman Cadets as to how Modern Conflict with dimensions of Cyber and Space will bring in a new set of Challenges for future leaders.

National Technology Week 2023

The National Technology Week 2023 opened doors for innovators across India to display their projects, connect with industry experts. It was organized by NITI Aayog from 11-14th May. Many of ISpA Member Startups showcased their company at the exhibition, such as - MapmyIndia, Galaxeye Space, Dhruva Space, Bellatrix Aerospace, Digantara, Pixxel, Skyroot Aerospace, Canopus Space, Manastu Space, Elena Geo Systems and so on.

For General Queries: info@ispa.space, +91 9667303304

For Membership: Ms Aditi (aditi@ispa.space, +91 8437985777); coord@ispa.space

Industry Consultation Workshop on 'Integrating GIS Capabilities with UPYOG under the National Urban Digital Mission'

Under NUDM, an open-source platform named Urban Platform for DeliveryY of Online Governance (UPYOG) has been developed as a key offering to be utilized by the States and UTs for accessible and citizen-centric urban governance.

NIUA organized the workshop to deliberate on some of the key questions around current industry practices, challenges, and opportunities in this context before defining the approach for integrating GIS capabilities with UPYOG for further strengthening the platform.

Bicentenary Celebrations of Mussoorie

DG ISpA was invited to be the Chief Guest at the Bicentenary Celebrations of Mussoorie. "Honoured to share the stage with the family members of the Founders of Mussoorie Capt Late Frederick Young.", said Gen Bhatt.

Gen Bhatt focussed on the importance of saving Mussoorie from an Ecological Disaster which will require participation of the local populace to ensure that Mussoorie does not go the Joshimath Way'. He also highlighted conservation efforts like 'Jabarkhet Trek' and the 'Benog Sanctuary'."

Space Insurance Update 2023

The event organised by Global Insurance Brokers with its Partners, WTW and Price Forbes, was aimed to bring best insurance and risk management solutions to the Indian Space economy.

Director-ISpA talked and presented the Industry Perspective on the Space Insurance and growth potential of satellite launches and space exploration missions along with the present challenges such as lack of historical data for space missions, space debris risks

India Defence Conclave - ET Government

India Defence Conclave 2023 focussed on key discussion points as follows:

- Roadmap for R&D in Aerospace and Defence Sector
- State Defence Industrial Corridors for Catalysing India's self-reliance capabilities
- New and Emerging Technologies in Defence Sector
- Indian Startups for Driving innovation that responds to a rapidly changing global scenario

CAPS 2nd Annual Space Security Dialogue

Centre for Air Power Studies organised the 2nd Annual Space Security Dialogue on the theme "Leveraging Space for National Security" on 12 May 2023 at Conference Hall, Air Force Auditorium, Subroto Park, New Delhi. This seminar was started as an annual event in 2022 to bring the key players together on a common platform to deliberate on the issues concerning space security for India.
